Dawn Classe writes ... "I have had bad eczema on my hands for over a year. I would even wake up in the night because the itch was so bad. I have tried so many creams and tried different dish soaps. Nothing helped. I was miserable! After learning that eczema could start in the gut, I decided to try Shaklee's probiotics (OptiFlora) and their Alfalfa supplements. After 5 days of taking them, I am seriously amazed at the results. No more itch and burn. It is a life changer! I can't wait to see more results in a few more days!

**Bronze Medalist**

"As a "pusher" in the Bobsled event, 95% of my job is complete after the first five seconds out of the gate. But for those five seconds, I need to pack in all the energy, focus, power, and agility I can muster. Shaklee Energy Chews help make those five seconds awesome." - Curt Tomasevicz, Bobsledder,

## Have you discovered NATURE BRIGHT?

Use Nature Bright to:

- \*whiten and brighten clothes
- \*remove coffee & tea stains
- \*remove stains in toilets/sinks

Use by itself or in conjunction with Basic H, Basic G, Scour Off and Shaklee Laundry.

Uses natural enzymes and active oxygen to brighten and remove stains.

Think Babies, Grass, Mashed Potatoes and Gravy!

## COFFEE/TEA STAINS = NO MATCH FOR SHAKLEE GET CLEAN!

1 teaspoon Nature Bright + 2-3 drops Basic H2

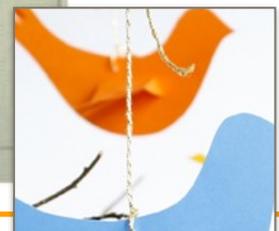

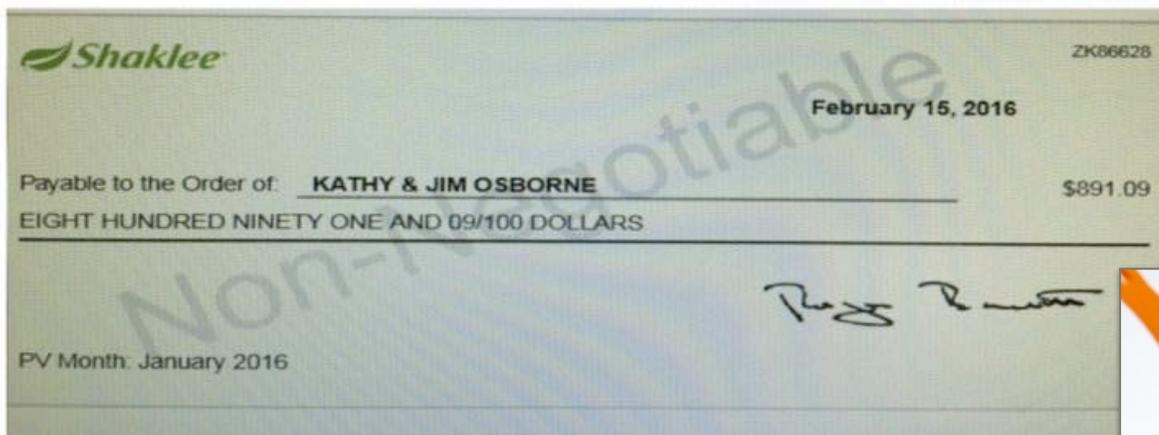

Fill with Hot Water and Soak

## Why Kathy Builds Her Shaklee Business .....

### Kathy made \$891.09 her 1st month as a Director!!

- Stay home with Jim
- Have a healthy family
- Get paid to share Shaklee!
- Projects around the house
- Pay for our Granddaughters education
- Travel!
- Pass our business to our son

# Eye Health

In June, I went to see if I needed bi-focals, as the readers I was using were not strong enough. I seemed to have a problem seeing clearly with my left eye, so I thought I just needed a prescription for distance and reading glasses.

After the exam, the doctor said that I should see a specialist as he thought there was something going on in the left eye. I went to a specialist and the diagnosis was Epiretinal Membrane Macula Traction, left eye.

The vision was 20/200. I did not have Macular Degeneration or Cataracts or Glaucoma. The explanation was that as we age the vitreous gel on the eye pulls away and we get floaters, etc. Some of the cells create a thin film and in my case landed on the center vision of the macula. It is sometimes called a macular pucker. He said it would not get worse OR better. He did say they could do a surgical procedure to peel off the tissue, but it is a delicate and not always successful surgery. Since I am not a fan of surgery, I chose to carry on with limited vision in that eye. The only problem I had was a blurred section, but I could still see.

In August I added the Shaklee Vitalizer daily vitamin strip and also increased my OmegaGuard to 6 daily. I got another checkup with the specialist in January and there was a slight improvement 20/100. I saw him again on May 20 and my left eye was 20/70.

I started Vivix August 8th. I had a recheck on October 2 and to the Doctor's amazement, it was 20/25. He was so curious and amazed that he examined me several times to recheck to see if there was an error in the figures. I am thrilled ... and he has asked me to send him info on Vivix! I told him he needs to let his patients know about Vivix.

**MOUTH:** oral ulcers & excessive dryness

How wonderful to be able to reach for a product that can diminish all of these risks!

## STRESS RELIEF

Item: #20656

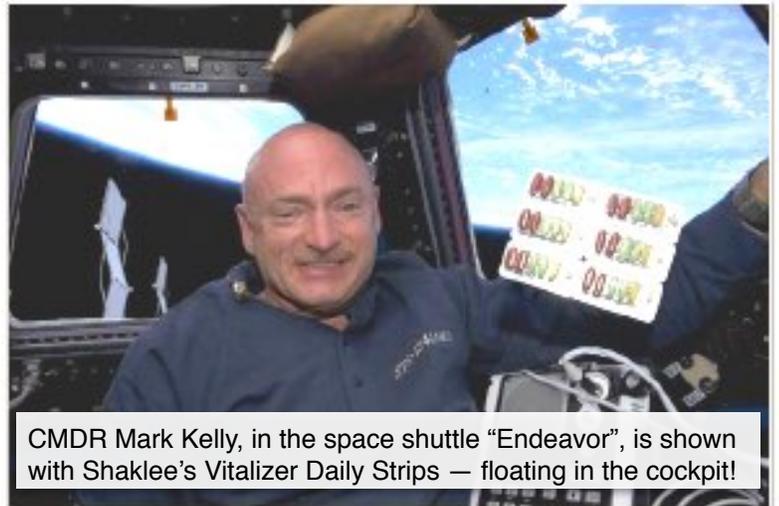

# Shaklee & NASA

Beginning in 1993 and through the end of the NASA shuttle program, Shaklee provided NASA with a customized version of its rehydration beverage, Performance, under the name Astroade for use by Shuttle astronauts.

## PERFORMANCE

Performance is ideal for anyone who wants to stay hydrated or for a tasty drink. Many folks combine Pomegranate Tea and Orange or Lemon/Lime Performance for an Energy Drink.

CMDR Mark Kelly, in the space shuttle "Endeavor", is shown with Shaklee's Vitalizer Daily Strips — floating in the cockpit!
